EDUCATION

University of Houston

Bachelor of Science in Computer Science, Minor in Mathematics

Houston, TX

Expected May 2026

EXPERIENCE

Computer Vision Research Intern

University of North Texas

January 2026 – Present

Denton, TX

- Developing and optimizing deep learning-based object detection models in PyTorch, training on 1,000+ images to improve road debris detection across diverse driving environments
- Analyzing image data and refining model performance and detection accuracy for roadway safety applications

Coding Instructor

Code Ninjas

December 2024 – Present

Houston, TX

- Delivered weekly programming sessions for 30+ students (ages 6–14), teaching JavaScript, debugging, and core programming logic while transitioning learners from block-based coding to text-based development in VS Code
- Facilitated 10+ hands-on camps in game development, robotics, and modding (Minecraft/Roblox), guiding students through building 5+ interactive projects per camp

Machine Learning Research Intern

California State University, Dominguez Hills

January 2025 – June 2025

Carson, CA

- Built and evaluated a Vietnamese–English neural machine translation system for clinical text, improving BLEU scores by approximately 25% over baseline models
- Implemented preprocessing and evaluation pipelines using SentencePiece, BPE, and SacreBLEU, processing 200,000+ sentence pairs to systematically track and improve performance in low-resource settings

PROJECTS

NAVI – Hackathon Winner | *Next.js, APIs, Google Gemini, ElevenLabs*

October 2025 – October 2025

- Led a cross-functional team of 4 to scope, design, and launch an AI-powered assistant integrating Gmail, Outlook, and Calendar data, earning 3rd place out of 100+ participants at CodeRED Hackathon
- Designed a modular data aggregation framework integrating NLP, voice, and mapping services, reducing data sync latency by 60% and enabling scalable, plug-and-play integrations

Impact Match | *React, Vite, Node.js, Express.js, PostgreSQL, AWS*

August 2025 – December 2025

- Created full-stack volunteer platform with automated matching based on skills, availability, and location, streamlining event discovery and coordination
- Engineered backend with 10+ RESTful API endpoints, secure authentication, and AWS-hosted PostgreSQL, enabling scalable data management and volunteer tracking

LEADERSHIP

Student Director

UH NSM Career Center

August 2025 – Present

Houston, TX

- Directed planning and execution of career fairs, internship bootcamps, and employer events, engaging 1,000+ students and 70+ employers while designing programming for 200+ students per event
- Strengthened employer and faculty partnerships to align 100+ opportunities, delivered career coaching to 25+ students/month, and drove 30% YoY increase in event attendance

TECHNICAL SKILLS

Languages: Python, R, SQL, JavaScript, TypeScript, C++, HTML/CSS

Frameworks & Libraries: React, Next.js, Node.js, Express.js, Django, PyTorch, Tailwind CSS

Databases & Cloud: PostgreSQL, MySQL, MongoDB, AWS, Azure

Developer Tools: Git, GitHub, VS Code, Google Colab, Figma, Power BI, Tableau
